

New Source Review newspaper advertisements for construction permit applications, January 12, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: January 10, January 11, or January 12, 2006. Public notices are generally published every two weeks. The previous publication of public notices was December 27 – 29, 2005.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Humboldt Cotton, LLC dba Farmers Gin of Humboldt with a mailing address of P.O. Box 324, Humboldt, TN 38343. They seek to obtain an air contaminant permit (Division identification number: 27-0028-01/58770) for modification of a Cotton Gin located at 1400 McKnight Street, Humboldt, TN 38343. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modifications are to activate a back-up gin stand to a primary stand, effectively increasing the hourly capacity, and to increase the annual bales of cotton processed. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the Gibson County "Milan Mirror-Exchange"--published once on or before Thursday, January 12, 2006.

The applicant is Quebecor World/Clarksville with a mailing address of 451 International Blvd., Clarksville, TN 37040. They seek to obtain an air contaminant permit (Division identification number: 63-0130-00/58703) for modification of Printing Operations located at the above address. The requested modifications are to construct a new web heatset offset lithographic press and regenerative thermal oxidizer, to include a web heatset offset lithographic press and two inkjet printers (emission source number 63-0130-12) covered by an existing construction permit, and to remove two existing presses. Thermal oxidizers are used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. Stan Lodl is the assigned Division person.

For the Montgomery County "Leaf-Chronicle"--published once on or before Thursday, January 12, 2006.

The applicant is Federal Materials Company Inc. with a mailing address of 2425 Wayne Sullivan Drive, Paducah, KY 42003. They seek to obtain an air contaminant permit (Division identification number: 66-0110-01/58662) for modification of a Concrete Batch Plant located at 106 Barham Road, Union City, TN 38261. This existing operation consists of cement storage silos, sand and gravel stockpiles, and associated equipment used to produce concrete which is discharged by weigh-batcher into trucks for transit mixing. Wet suppression and fabric filters are used for pollution control. The requested modification is to increase the annual allowable production rate. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Smith is the assigned Division person.

For the Obion County "Union City Daily Messenger"--published once on or before Thursday, January 12, 2006.
